

**NO-SYNTHASE INHIBITORS COMPRISING  
N,N'-BIS(2-PYRIDYL)METHYL-N,N'-BIS(3,4,5-TRIMETHOXYBENZYL)  
ETHYLENEDIAMINE**

5

**ABSTRACT OF THE DISCLOSURE**

N,N'-bis(2-pyridyl)methyl-N,N'-bis(3,4,5-trimethoxybenzyl)  
ethylenediamine and therapeutic/cosmetic compositions comprised thereof are  
10 useful NO-synthase inhibitors, suited, *inter alia*, for slowing or even inhibiting  
cell differentiation and/or proliferation, and for inhibiting the degradation and/or  
destruction of cells.
